A natural wonder / a famous place in Egypt

Egypt has a lot of natural wonders which cannot be seen in other places all over the world. I visited the Kharga Oasis last week with my family. The Kharga Oasis is one of Egypt's natural wonders. It is surrounded by desert, far from the River Nile. It is visited by more and more tourists every year. It is full of date palm trees. These dates can be exported *يصدر* to a lot of other places in addition to selling them in many shops in the local area. Oases in general lie *يقع* in remote places. Sometimes it is difficult to be reached especially in extreme weather. People prefer visiting near places to remote ones. If they are visited, it is also difficult to stay in for a few days. There are no many hotels or many houses around oases; simply because oases lie in the desert!

A story you have read - Short Story "Black Beauty"

"Black Beauty" is a story about a black horse in nineteenth-century England. The horse tells the story of his life which began at a farm. Black Beauty's mother teaches him to be a good horse. Farmer Grey is very kind and Black Beauty is happy. When Black Beauty is four, Farmer Grey sells him to Squire Gordon. Black Beauty makes friends with other horses and the Squire looks after them very well. Unfortunately, the Squire moves abroad and Black Beauty is sold to different people. Some people are very unkind. One of his homes is very bad. Black Beauty has many adventures before he finally finds a good home again.

A job I would like to do / my dream job

My future goals, ambitions and plans

When I grow up, I would like to be an editor. I want to work for English language news websites. I will decide which articles are the most important. I think that before the article goes on the website, I have to check the facts that are in it. Then, I have to check the writing because sometimes there are spelling mistakes or the language is not very easy to understand. I think I will have to choose photographs to

go with the article. I think that I should get them from other websites. To do this job, I think I should study English and media at university. I prefer this job because I think it is very interesting.

Advantages of recycling - helping our environment – climate change"

Our planet is getting hotter and our weather is changing. There are more floods, droughts and forest fires than at any time in history. This is called climate change. To stop climate change, we must start recycling more rubbish and stop putting rubbish in landfill sites. Recycling is very important as it helps to save our planet. First, it saves energy. Secondly, it reduces **نقل** the amount of waste that is sent to landfill sites. When we leave waste on landfill sites for a long time, it produces different kinds of greenhouse gases like methane. Thirdly, recycling paper and wood saves trees that breathe in carbon dioxide and make oxygen. So, it helps our environment to be cleaner. I think recycling is the best solution for helping our environment. This will help slow down climate change.

Social media

Social media is a popular thing that many prep stage students use nowadays. It helps them connect with others and share their thoughts and ideas. They can make new friends and learn about different cultures from all over the world. However, it's important for students to be careful when using social media. Spending too much time on screens can be bad for their health, and they need to watch out for cyberbullying or sharing personal information with strangers. Teachers and parents can help students use social media in a safe and responsible way. They can teach them how to be smart online and protect their privacy. When used wisely, social media can be a great tool for learning and making friends.

A biography about a famous person – A person in the media - A biography of a person I admire- A person you like most

Farouk Shousha was born in Damietta. He went to a nearby primary school. He studied and lived in Egypt. He went to the local library. He was able to read many books in the Arabic language. He is a well-known radio presenter and a famous poet. He studied at Cairo University and graduated from the faculty of Dar Al-Ulum **دار العلوم**. He worked as a radio presenter. He always talked about the beauty of the Arabic language and its rich literature. He presented many programs like "our beautiful language". He was called the guardian of the Arabic language. He helped many young presenters.

Modern technology- satellite technology- The importance of GPS

Modern technology is very important in our life. We can't live without satellite technology. We have used satellite technology for many things. We use GPS to find our way. We have GPS in cars, on phones and even in some modern motorbike helmets. Satellites also allow us to study the weather all around the world. Lots of people have satellite TV, so they can watch their favourite shows. Modern technology makes our life easier

A review of weaving- Egyptian handicrafts- How weaving help the environment"

Egyptian handicrafts are popular for tourists. Weaving is one of the most popular crafts in Upper Egypt. To weave, you need looms, threads and needles .A loom is a machine that crosses threads under and over each other to make fabric. Weavers can make very beautiful things. Unfortunately, there aren't many traditional weavers in Egypt today. To encourage doing that traditional craft, the government is planning to build four new schools to teach weaving in different cities. These schools will have the best weavers all around Egypt. Their job is to teach students how to weave. They also plan to do a recycling project which is connected to weaving. I think weaving is very important for Egyptian economy. اقتصاد
